Professional Summary

Senior Flutter Developer with **5+ years of professional experience** designing, developing, and maintaining **cross-platform mobile applications** for Android and iOS. Strong expertise in **Flutter, Dart, GetX**, Firebase ecosystem, and RESTful API integration. Proven track record of delivering **production-ready applications** with clean architecture, optimized performance, and scalable design. Experienced in working with **remote, distributed teams** and contributing to fast-paced startup and product environments.

Core Technical Skills

Mobile Development: Flutter, Dart, Android (Java)

State Management & Architecture: GetX, Provider, Riverpod, Bloc/Cubit, Clean Architecture, MVC, MVVM, SOLID Principles, OOP

Backend & APIs: REST APIs, JSON, API Authentication, Firebase Functions, Basic PHP

Cloud & Firebase: Firebase Authentication, Cloud Firestore, Firebase Cloud Messaging (FCM), Firebase Analytics, Firebase Crashlytics

Databases & Storage: SQLite, Hive, SharedPreferences, MySQL (API-based)

Tools & Workflow: Git (GitHub/GitLab), Android Studio, VS Code, Postman, Agile/Scrum

Development Practices: Agile/Scrum, SDLC, Code Reviews, Performance Optimization

Deployment: Google Play Store (Production Releases), Versioning, Rollbacks, Bug Fixing

Professional Experience

Senior Flutter Developer, *Bebuzee Inc.*   Sep 2023 – Present | Remote (US-based)
- Designing and maintaining large-scale **Flutter applications** for a social media and super-app platform.
- Implemented scalable mobile architecture using **GetX** for state management, navigation, and dependency injection.
- Integrated complex **REST APIs** and Firebase services including Authentication, Firestore, FCM, and Functions.
- Improved application stability and performance by resolving **critical production issues** and optimizing UI rendering in a **live production environment**.
- Collaborated with product managers, designers, and backend teams in **Agile remote environments**.
- Managed Play Store releases, app updates, and post-launch maintenance.

Senior Flutter Developer, *CodeAir Technologies*   Apr 2023 – Aug 2023 | India
- Led development of multiple **client-facing Flutter applications** across different business domains.
- Mentored junior developers, conducted code reviews, and enforced clean coding standards.
- Worked closely with clients to gather requirements and deliver scalable Flutter solutions.
- Executed state management using Provider, Riverpod, and Bloc based on project needs.
- Deployed and maintained applications on **Google Play Store and Apple App Store**.

Flutter Developer, *CodeAir Technologies*   Apr 2022 – Mar 2023 | India
- Developed end-to-end Flutter applications from concept to production.
- Integrated REST APIs, Firebase services, and third-party SDKs.
- Collaborated with UI/UX designers to deliver user-friendly, responsive interfaces.
- Worked closely in cross-functional teams following Agile/Scrum practices to deliver production-ready releases.
- Debugged, tested, and optimized applications to ensure smooth performance.
- Published and maintained live mobile apps with ongoing updates.

Flutter & Android Developer, *Cyphernate*   Nov 2020 – Apr 2022 | India
- Developed native Android applications using **Java** and cross-platform applications using Flutter.
- Built scalable mobile solutions focusing on performance, UI/UX, and maintainability.
- Integrated Firebase, REST APIs, and third-party libraries.
- Managed complete mobile app lifecycle from development to Play Store deployment.

Projects

Social Media & Super App
- Large-scale, production Flutter application with real users.
- Technologies: Flutter, Dart, GetX, Firebase, REST APIs.
- Focused on performance optimization, scalability, and long-term stability.

Pet Food & Services Marketplace
- Marketplace application for service booking, payments, and location-based discovery.
- Integrated Google Maps, secure payment gateways, and real-time notifications.
- Deployed on Android and iOS platforms.

Employee Provider Marketplace (USA)
- Two-sided marketplace for job posting, bidding, and payments.
- Built real-time workflows using Firebase and REST APIs.
- Applied push notifications and Google Maps integration.

Festival Post & Video Builder App
- Marketing application for businesses with customizable templates and video creation.
- Focused on UI performance and smooth content editing experience.

Textile ERP Mobile Application
- ERP solution for inventory management, orders, production tracking, and analytics.
- integrated role-based access control and dashboard reporting.
- Integrated REST APIs with MySQL backend.

Availability

- Open to **remote roles (US / EU time-zone overlap possible)**
- Full-time availability after initial engagement
- Strong experience with **asynchronous communication**

Education

Bachelor of Computer Applications, *VNSGU*   Aug 2018 – May 2021 | India
